In production since 2000, the BuckSqueeze is a Wood Pole Fall Restriction Device that provides Wood Pole Fall Protection during ascent and descent and, with the use of a secondary lanyard like the BuckAdjuster, protects the user while climbing over obstacles. Designed to grip the pole if the user starts to fall. For distribution poles with a circumference from 16" (5" diameter) to 50" (16" diameter).

Have you experienced a save with the BuckSqueeze? [Join our BuckSqueeze Safe Users Club now!](#)

## 483D - BuckSqueeze for Distribution

Product #: 483D
