

Locking Terminators

Spring Style

FEATURES:

- SCTE Compliant
- Solid rotator, nickel plated brass, all models
- Rubber O-ring on rotator to prevent moisture migration
- Exceptional corrosion resistance & galvanic compatibility
- Large pin diameter offers superior performance & rigidity
- Four models available with or without resistor
- Aluminum models color coded for easy ID
- Tools function with all Spring Style models
- Tools available in 4" & 7" lengths
- Optional rubber port weather seal

DESCRIPTION AND APPLICATION:

VIEWTEQ offers two types of Spring Style Locking Terminators, with or without resistor, made from either nickel plated brass or anodized high strength aluminum alloy. All models provide superior corrosion resistance, as well as elimination of galvanic corrosion between terminator and F port. Two Spring Style Installation Tools are also available (see below.)

VTGTT-4

VTGTT-7
